You're invited to the Artspace Engagement Share-Back Session

The City of Hopkins and Artspace have been exploring the feasibility of developing new affordable live/work housing for artists in Hopkins. Open houses and community engagement sessions were held in November and December 2019 for people to share their ideas and input.

Come hear what we learned through the community engagement process and see the concept plan for the site that was informed by the engagement activities. This information will be presented as part of a special City Council work session.
