

City of Hopkins

- Anticipate the needs of the City for the next 20 years. The facility needs to consider the long-term build out of the City.
- Achieve best function organization for the department, not just expansion.
- The facilities should strive to be safe for staff, but also be open and publically welcoming.
- Plan for common sense sustainable approaches for buildings and operations to create long term solutions that are fiscally responsible.
- A comfortable work environment which staff and city takes pride in.
- The facility solutions should showcase the City's rich history and commitment to the arts.

Guiding Principles
